

## OPTI-COAT PRO3

- SiC Protection from Chemical etching
- Multi-Layer High Gloss Coating
- **LIFETIME GUARANTEE**

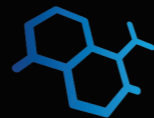

Opti-Coat Pro3 is the ultimate in ceramic paint protection and gloss. It is the most advanced coating which provides protection and gloss and is four times the thickness of Opti-Coat Pro or Pro+. Opti-Coat Pro3 provides the most chemical resistance and environmental protection. Opti-Coat Pro3 enhances the durability of your vehicle's paint by adding several layers of protection for the life of your car. Opti-Coat Pro3 provides a protective ceramic coating with superior resistance to swirling, chemical etching, and fading. Then, Opti-Coat Pro3 Top Coat is added to further increase the hardness and scratch resistance of the ceramic clear coat for the life of your vehicle's paint.

## OPTI-COAT PRO

- SiC Protection from Chemical etching
- Single Layer Coating
- **5 Year GUARANTEE**

Opti-Coat Pro is an SiC based resin which permanently bonds to all exterior automotive surfaces and provides extreme barrier to acids, enzymes, and other environmental contaminants therefore it prevents acid etching from bird lime, bug splatter, acid rain, etc. The ceramic particles condense to form a scratch resistant coating that is chemically fused to the factory paint.

## OPTI-COAT PRO+

- SiC Protection from Chemical etching
- Dual-Layer High Gloss Coating
- **7 Year GUARANTEE**

Opti-Coat Pro+ is a dual-layer ceramic coating featuring our SiC basecoat with added rapid cure top coat that produces a super-hydrophobic finish while increasing gloss and color intensity keeping your car looking new for many years. Opti-Coat Pro+ has excellent release properties which repels dirt and other contaminants keeping surfaces cleaner for longer.

## OPTI-TRIM PROTECT

Opti-Trim Protect is a durable, clear hybrid resin coating designed to protect new trim from oxidation and fading. Opti-Trim Protect contains high levels of UV blockers to help prevent fading of plastic trim while maintaining and preserving the factory appearance.

Using Opti-Trim Protect on oxidized and faded trim will restore the trim back to a like new original factory look and it will prevent further oxidation with the help of high levels of UV blockers. One application will protect and restore trims for several years.

Restore or Preserve Plastic Trim

Long Term UV Protection

## OPTI-GUARD

### What is OPTI-GUARD?

Opti-Guard is a series of coatings to provide superior protection and durability for all interior surfaces including leather, vinyl, and fabric materials.

Permanent Protective System

Easy to Clean Surfaces

Repels Stains & Spills

### OPTI-GUARD Guarantees Protection Against:

- UV Damage
- Permanent stains

**5**  
year  
**GUARANTEE**

## OPTI-GUARD Leather & Vinyl

Opti-Guard Leather & Vinyl creates a hydrophobic coating with concentrated UV absorbers to protect leather seats and dashboards from premature aging and cracking. Opti-Guard is also effective at resisting other damage such as permanent color transfer and staining of leather seats.

Opti-Guard Leather & Vinyl is a ceramic hybrid resin that creates a strong, yet flexible coating for these softer surfaces and high resistance to chemicals. The coating contains special matting agents to maintain the original factory appearance of the surface it is applied to.

## OPTI-GUARD Fabric

Opti-Guard Fabric creates a super-hydrophobic coating to protect fabric seats, carpets, fabric convertible tops and other textile surfaces. When liquids come in contact with Opti-Guard Fabric, the surface repels the substance and liquids roll off without penetrating or permanently staining the material.

Opti-Guard Fabric forms a strong bond with the fibers to prevent removal during cleaning. When combined with regular use of Optimum Fabric Cleaner & Protectant, the Opti-Guard system provides ongoing, permanent protection for these surfaces.

## OPTIMUM PAINT GUARD

Optimum Paint Guard is our entry level ceramic coating. Paint Guard will make your vehicle noticeably easier to maintain and guaranteed to protect your vehicle from corrosive chemicals for 3 years.

**3**  
year  
**GUARANTEE**

## OPTI-GLASS PRO

Opti-Glass Pro is designed to chemically bond to silica based surfaces to produce a super-hydrophobic film that provides long term protection to glass and similar surfaces.

Compared to silicone based glass sealants, Opti-Glass Pro has far superior resistance to wiper abrasion and provides increased chip, scratch and mar resistance, and protection from water staining.

Combine Opti-Glass Pro with regular use of Optimum Opti-Glass Clean & Protect for the ultimate glass coating system.

Improves Driver Visibility

Super-Hydrophobic Durable Coatings

## OPTI-LENS

Preserves & Reduces Fading

Opti-Lens is the most advanced ceramic hybrid resin for headlight protection. Opti-Lens contains high levels of UV blockers to produce long term protection and reduce future fading of the polycarbonate material over time.
